

LWV Introduction to Power Point
Redistricting in Michigan
Should Politicians Choose Their Voters?

The League of Women Voters is a nonpartisan political organization that encourages the informed and active participation of citizens in government, works to increase understanding of major public policy issues, and influences public policy through education and advocacy. As such, it is currently engaged in an educational campaign on redistricting in Michigan, hoping to bring to light the essential unfairness of having politicians draw the lines of legislative districts to their own benefit.

This powerpoint, *Should Politicians Choose Their Voters*, will provide you with the basic information about how and why district lines are drawn the way they are and ways in which we can make the process fairer.
